Hours must be completed by garden closure in October (determined by weather each season). HC3 can only track hours through sign-up sheets and events. Gardeners are responsible for reporting additional garden hours to HC3. Hours must be in communal volunteer efforts, not in tending to personal garden space. Questions about volunteer hours can be directed to Hayden van Andel at [hayden@highcountryconservation.org](mailto:hayden@highcountryconservation.org)

*\*Nancy's Community Garden plots require 20 garden hours. These hours are for opening and closing greenhouse shifts as well as installing and removing greenhouse plastic. All gardeners must attend a garden orientation and pre-register for shifts during the summer.*

*\*\* Leslie's Community Garden plots require 10 volunteer hours. Five of the 10 hours must be completed in the garden itself and approved by garden steering committee members. The remaining hours can be achieved through volunteer events with HC3.*
