Water Conservation Rebate Requirements

- An irrigation assessment by a certified professional is required prior to applying for efficient irrigation equipment.
- Rebate applicants may apply once for each of the two rebate types: irrigation assessments and irrigation equipment. Each rebate type can be a separate application, or several rebate types may be combined into one application.
- Rebate applications must be received within 90 days of the date on the paid invoice/receipt.
- Rebate checks will be mailed within 4 – 6 weeks of receiving completed rebate application and providing all required documentation.
- In the case of efficient equipment rebates, HC3 reserves the right to inspect the project after completion.
- HC3 is not liable or responsible for any act or omission of any party, consumer, or contractor whatsoever.
- HC3 is not liable for rebates promised to consumers because of a contractor misrepresenting the program.
- Rebates are subject to change and/or discontinue without notice. Funding is limited. Applications will be accepted on a first-come, first-served basis.
- HC3 reserves the right to refuse payment and participation if the consumer or contractor violates program rules and procedures.
